

GOAT ANTI HUMAN COLLAGEN III

Clone no. -

MONOSAN

---

Product name	GOAT ANTI HUMAN COLLAGEN III
Host	Goat
Applications	ELISA, IB, FC
Species reactivity	Human
Conjugate	-
Immunogen	Native Human Collagen III.
Isotype	-
Clonality	Polyclonal
Clone number	-
Size	0.2 mg
Concentration	0.4 mg/ml
Format	Purified
Storage buffer	Borate buffered salineNone present
Storage until expiry date	-20°C

FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES

## GOAT ANTI HUMAN COLLAGEN III

Clone no. -

MONOSAN

**Additional info**

Goat anti Human Collagen III antibody recognizes human collagen III and shows <10% cross-reactivity with collagen type I, II, IV, V and VI. Reactivity with other ECM proteins such as fibronectin and laminin has not been tested. Goat anti Human Collagen III antibody may react with Collagen III from other species. Storage: Goat anti Human Collagen III antibody recognizes human collagen III and shows <10% cross-reactivity with collagen type I, II, IV, V and VI. Reactivity with other ECM proteins such as fibronectin and laminin has not been tested. Goat anti Human Collagen III antibody may react with Collagen III from other species.
