

NeoStir HP320-Hot plate magnetic stirrer

Cat # NB-12-4030B1 with Ceramic Coated Stainless Steel top

Cat # NB-12-4030B2 with Stainless Steel top

Cat # NB-12-4030B3 with Aluminum top

NeoStir HP320-Hot plate magnetic stirrer

1. Single instrument with 3 optional different setup plates
2. Max stirring capacity of 10 liters
3. Heater temperature setting from ambient to 320°C with safe temperature setting upto 345°C
4. Safe temperature circuit for accurate temperature during operation
5. Variable speed setting from 200 to 2200 RPM in steps of 10 RPM
6. Long timer range from 1 to 999 mins & infinite mode
7. Comes with PT-1000 probe to accurately measure temperature of medium
8. Set-up plate dimensions: 140mm
9. Weight & Dimensions: 2,2k 156 x 248 x 104mm
10. Protection class: IP 21

 <p>Servo DC Motor For Enhanced Performance</p>	 <p>Variable Speed From 200-2200 RPM</p>
 <p>Microprocessor Controlled</p>	 <p>Large & Clear Display</p>
 <p>Variable Temperature Setting From Ambient To 320° C</p>	 <p>Variable Timer Setting From 1 Min To Infinite</p>
 <p>10 L Of Volume</p>	 <p>Separate Display For RPM / Time & Temp</p>
 <p>Option Of Selecting Either °C Or °F As Temperature Units</p>	 <p>Temp. Accuracy Of +/- 1°C</p>
 <p>Power Intermittent Mode-auto Restart After Power Resumes For The Left Operational Time</p>	 <p>Safe Temperature Setting Up To 345° C</p>
 <p>PT-1000 Temperature Probe</p>	 <p>Small Footprint</p>
