### General Information

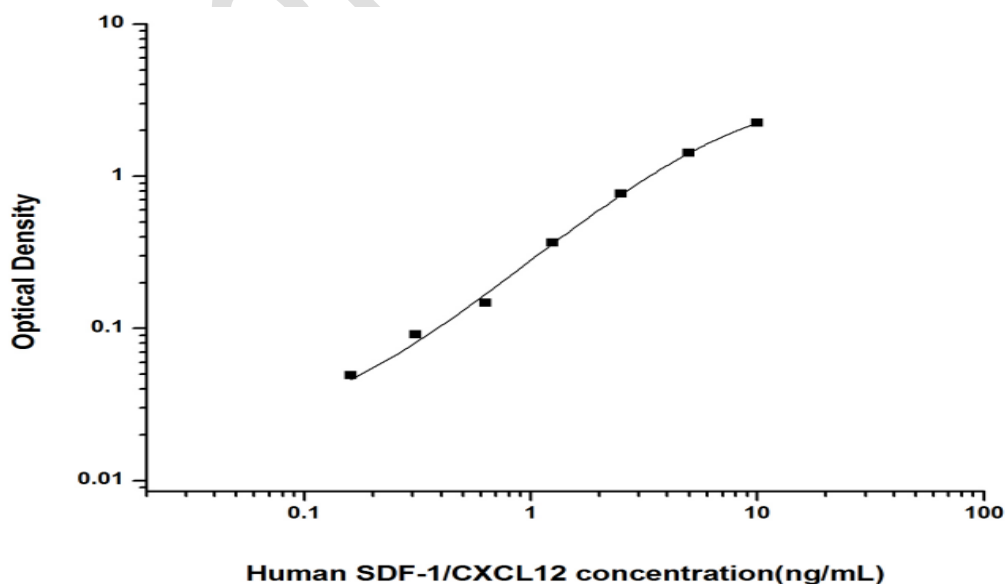

|                   |                                                                                                                                                                |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Type      | Kits                                                                                                                                                           |
| Short Description | This CXCL12 Sandwich ELISA is an in-vitro enzyme-linked immunosorbent assay for the measurement of samples in human serum, plasma and other biological fluids. |
| Application       | ELISA                                                                                                                                                          |
| Reactivity        | Human                                                                                                                                                          |

### Product Properties

|                      |                                                                                                                                                                                            |
|----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Detection            | Colormetric                                                                                                                                                                                |
| Sensitivity          | 0.09ng/mL                                                                                                                                                                                  |
| Detection Limit      | 0.16~10ng/mL                                                                                                                                                                               |
| Assay Time           | 3.5h                                                                                                                                                                                       |
| Storage Instructions | If unopened the kit may be stored at 2-8°C for up to 1 month. If the kit will not be used within 1 month, store the components separately, according to the component table in the manual. |
| Note                 | STRICTLY FOR FURTHER SCIENTIFIC RESEARCH USE ONLY (RUO). MUST NOT TO BE USED IN DIAGNOSTIC OR THERAPEUTIC APPLICATIONS                                                                     |

### Target Information

|              |                                            |
|--------------|--------------------------------------------|
| Sample Types | Serum, plasma and other biological fluids. |
| Gene Symbol  | <a href="#">CXCL12</a>                     |
| Uniprot ID   | <a href="#">SDF1_HUMAN</a>                 |

This product is suitable for in-vitro studies under the **RESEARCH USE ONLY [RUO]** licence.  
This product must not be used as for diagnostic or other medical purposes.
